About

I am an Entrepreneur, Tech Product developer and Teacher. Trying to do something useful for mankind. I am passionate about technology. I have been working on various technology especially electronics circuit since my childhood. I have completed B.Sc. and M. S in Physics from Shahjalal University of Science & Technology, Bangladesh. I was the team leader of SUST Drone team. During my university life, I worked on various projects with various team as well as the tech industry. After completion of the Master's degree in 2014, I had joined a private university as a lecturer in the Electrical & Electronic Engineering Department and eventually, I got promoted to Assistant Professor. Besides university teaching, I had started a tech company called CRUX. In May 2018, I left the job and became a full-timer in my company. In the same year, I also co-founded another company called Cybernetics Robo Limited and working as Chief Technology Officer. In my career, I worked on various technology such as Embedded System, Drone, Unmanned Submarine, IoT, Mobile & Web Application, Robotics, etc.
